

Name _____

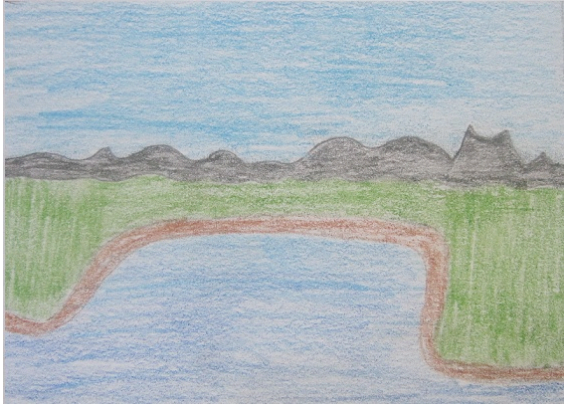

Landforms

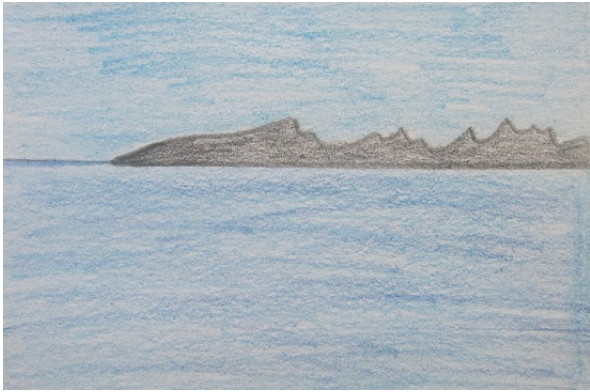

Directions: Write the name of each landform and body of water on the line in each box. Then cut out definitions. Match the definitions with the picture of each landform. Glue the definition next to the correct picture.

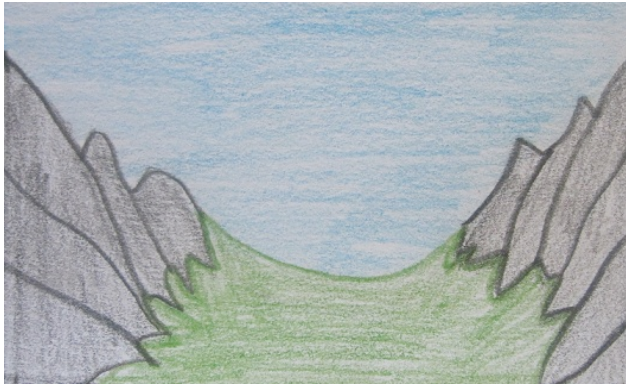

Definitions

| | |
|---|---|
| High flat land | Body of water with land all around it |
| Body of water partly surrounded by land | Land with water all around it |
| The highest kind of land | Very large body of salt water |
| Low land between hills and mountains | Flat land |
| Long body of water that flows across land | Land that is higher than the land around it |
